B
Bond strength of self-etching primer and total-etch adhesive systems to primary dentin. 71:131-134

C
Children with attention deficit disorder and learning disability: Findings from the First National Study. 71:101-104
Clinical evaluation of simple fixed space maintainers bonded with flow composite resin. 71:163-168
Clinical evaluation of 2 different methods of stainless steel esthetic crowns. 71:212-217
Clinical outcomes for Early Childhood Caries (Letters). 71:188
Clinical outcomes for Early Childhood Caries: influence of aggressive dental surgery. 71:114-117
Clinical techniques to reduce sensor plate damage in PSP digital radiography. 71:169-170
Comparison of rotary and manual instrumentation techniques on cleaning capacity and instrumentation time in deciduous molars. 71:45-47
Comparison of submandibular/sublingual salivary flow rates in children and adolescents. 71:38-40

D
Dental fusion and dens evaginatus in the permanent dentition: Literature review and clinical case report with conservative treatment. 71:69-72
Dental management of an adolescent with Trisomy 13 Syndrome: A case report. 71:91-95

E
Effect of nonrinse conditioner on the durability of a poly acid-modified resin composite fissure sealant. 71:152-157
Effectiveness of chlorhexidine-thymol varnish in preventing caries lesions in primary molars. 71:61-65
Evaluation of the bonding mechanism of an adhesive material to primary teeth. 71:54-60

F
Female dental practitioners and care of speical needs children . 71:218-221

G
Glass-fiber reinforced composite in management of avulsed central incisor: A case report. 71:66-68
Green pigmentation of deciduous teeth: Report of two cases. 71:179-182

H
Hypodontia involving only mandibular permanent canines: Report of 6 cases. 71:197-200

J
JDC: Instructions to contributors. 71:183-184

M
Medicare eventually may cover dental costs - but what about the children? 71:4-7
Microleakage at sealant/enamel interface of primary teeth: Effect of Er:YAG laser ablation of pits and fissures. 71:143-147
Microleakage of restorative techniques for pulpotomized primary molars. 71:209-211
Molarization and development of multiple supernumerary teeth in the premolar region. 71:171-174
Multidisciplinary treatment of "twinned" permanent teeth: Two case reports. 71:80-86

N
Nails as biomarkers of fluoride in children of fluoridated communities. 71:121-125
Nasal versus oral midazolam sedation for pediatric dental patients. 71:126-130

O
Odontomas in the primary dentition: Literature review and case report. 71:73-76
Oral abnormalities in Taiwanese newborns. 71:118-120
Oral health care for the internationally adopted child: A case report. 71:190-192
Oral trauma in an urban emergency department. 71:14-16

P
Parent satisfaction with emergency dental treatment at a children's hospital. 71:17-23
Pediatric cervicofacial actinomycosis: A case report. 71:87-90
Penetration and microleakage of dental sealants in artificial fissures. 71:41-44
Periodontitis as manifestation of Crohn's disease in primary dentition: A case report. 71:193-196
Positional changes of the upper canine and posterior teeth, hard palate, and sinus floor from primary to permanent dentition. 71: 48-53
Pre-eruptive intracoronal radiolucent defect: A case of a nonprogressive lesion. 71:175-178
Prevalence of pacifier-sucking habits and successful methods to eliminate them: A preliminary study. 71:148-151
Prevalence of periodontal disease in the primary dentition of children with cerebral palsy. 71:27-32

R
Relationship between needle phobia and dental anxiety. 71:201-205
Repairing a preveneered stainless steel crown with two different materials. 71:135-138
A rich and promising future (Editorial). 71:100
Risk of fluorosis associated with infant formulas prepared with bottled water. 71:110-113

S
Salivary gland disease in pediatric HIV patients: An update. 71:33-37
Self-inflicted gingival injury in a pediatric patient: A case report. 71:215-217
Silver restoration: bringing back our graying dentists (Editorial). 71:99
Success of reinforced fiber material space maintainers. 71:158-162
Sweet schizophrenia (Editorial). 71:3
Systemic and local teething disturbances: Prevalence in a clinic for infants. 71-24-26

T
Triple teeth: Case report of an unusual fusion of 3 teeth. 71:206-208

U
Unerupted mandibular second primary molar with an unusual histopathological finding: A case report. 71:77-79
Utilization of laser fluorescence to monitor caries lesions development in primary teeth. 71:139-142

V
The vital few or the trivial many (Editorial)? 71:187

W
Where's the best place to be born? 71:8-13

Y
Youngsters with HIV/AIDS may be your patients. 71:105-109
